

Acroprint BioTouch® Time Clock

Key Features

- ✓ Amazingly simple. There's **no comparison** on the market today!
- ✓ Fully self-contained. **NO software** to install. Requires **NO network** or data cables.
- ✓ Collect punches using fingerprint scan, proximity badge/ key fob, keypad PIN or a combination.
- ✓ Easily transfer data via USB memory stick to PC. Open reports in Excel for review and printing.
- ✓ Large capacity, up to five shifts and 500 users.
- ✓ Lightweight and portable.
- ✓ Can be placed on table or desk, or wall-mounted.
- ✓ Clock dimensions: 6" x 1½" x 5"
- ✓ One year warranty; extended warranty option available.

Included in the package:

- Acroprint BioTouch Time Clock
- Table top stand
- Wall-mount hardware
- Acroprint USB Memory Stick
- One (1) sample proximity badge
- AC power supply
- User Guide

Acroprint BioTouch Time Clock is a fully self-contained solution that requires **NO software installation**. Easy to use biometric identification eliminates buddy punching. Employees clock in and out using fingerprint, proximity badge/key fob, keypad or a combination.

The supervisor or administrator simply uses a USB memory stick (included) to transfer the punches from the BioTouch clock to their PC.

Using Microsoft Excel®, the administrator can set up the system, view reports and print time cards — all from the convenience of their PC, using the familiar Excel interface.

Available Accessories
